- a. Discussion / Approval of Amendment for Increase to the Budget Line-Item Amount for the Administration – Bldg & Maintenance Account due to Library A/C & Electric expense –  
President Block explained that the Kirkland Library A/C is a nine-year-old unit and no longer working, nor under warranty, and the electrical in the basement needs to be replaced. Public Works is working with vendors to get quotes for these repairs. Currently, the budget amount for the Administration – Bldg & Maintenance account is \$1,500 for the fiscal year, and budget amount needs to be increased to accommodate for the upcoming repairs to the Kirkland Library. Trustees inquired about all the work that needs to be done and getting additional quotes for the A/C and the electrical work. Also, the Trustees discussed other A/C options that the library might use. Linda Fett, the Librarian, stressed the importance of getting the A/C fixed. Block asked the Village Clerk to call vendor for additional A/C quotes. Block asked for a motion for the approval of Amendment for Increase to the Budget Line-Item Amount for the Administration – Bldg & Maintenance Account to \$5,000 for the Library A/C only and to table an Amendment for increase for the Electric expense until further quotes are received. - b. Discussion / Approval of Engineering Services from Fehr-Graham for Grant Application services for the Safe Routes to School Project– Vincent Gallo, the Village Engineer passed out Plan Sheet Map for 2025 Safe Routes to School to all the Trustees. President Block discussed that should the Village move forward with the Grant application it would probably have to be done in two phases. Phase 1 would be a sidewalk along Hortense from First Street to 3<sup>rd</sup> Street. Phase 2 would continue to sidewalk from 3<sup>rd</sup> Street to 7<sup>th</sup> Street. The Grant is for \$250,000 and No Match and all the money can only be used for Construction Cost. The village would be responsible for all Engineering and Environmental costs which would be roughly 30% of the Construction Cost. Trustee Ziegler asked about any other grants for Villages to support persons with disabilities. Trustee Marshall discussed his concerns with the sidewalk being on the North side of the road, versus the South side and the cost to widen the bridge at 7<sup>th</sup> Street. Vince mentioned it would be cheaper to add a separate structure beside the bridge. It was noted that the Plan Sheet Map provided is out of date, therefore Vincent said they will need to update it. President Block announced that the project will be tabled at this time.
- c. Discussion / Approval of Engineering Services from Fehr-Graham for Grant Application services for the IDNR Kayak/Canoe Boat Launch Project– Vincent Gallo, the Village Engineer passed out Attachment A-2: Site Development Plan for a Boat Launch at Pioneer Park. He mentioned that the Grant is for \$80,000 and No Match. The Engineering costs would be roughly 20% for about \$30,000 - \$40,000. Trustee Marshall mentioned that there is already a canoe/kayak boat launch area at Pioneer Park that is only 3 feet of elevation change to the river with a sandbar. The proposed boat launch plans would be a 14–18-foot drop in elevation to the river. It was decided that the current canoe/kayak boat launch is best.
- d. Discussion / Approval of Purchase and Installation of Security Camera System for the Kirkland Police Department– Police Chief, Adam Davenport explained that he got several quotes from

vendors but they were too high, so he reached out to Mike Ryan, the Village's IT Specialist and owner of Pine's Consulting, to provide a quote. President Block asked for a motion.
