Phone: (815) 941-9833

Fax: (815) 941-9835

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees  
Village of Kirkland, Illinois

We have audited the accompanying financial statements of governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Village of Kirkland, Illinois, (the Village) as of and for the year ended April 30, 2021, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Kirkland, Illinois, as of April 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

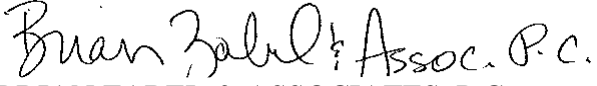

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The combining and individual fund financial statements and schedules, and supplemental data, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

The supplemental data section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## MANAGEMENT DISCUSSION AND ANALYSIS

VILLAGE OF KIRKLAND, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
April 30, 2021

---

The management of the Village of Kirkland, Illinois (the "Village") offers readers of the Village's financial statements this narrative overview and analysis of the financial activities of the Village for the fiscal year ended April 30, 2021. This discussion and analysis is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify changes in the Village's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved appropriation), and (5) identify individual fund issues or concerns.

### **USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL REPORT**

Historically, the primary focus of local government financial statements has been summarized fund type information on a current financial resource basis. This approach has been modified by Government Accounting Standards Board Statement No. 34. As a result, the Village's financial statements now present two kinds of statements, each with a different snapshot of the Village's finances. The focus of the new financial statements is on both the Village as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the Village's accountability.

#### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances, in a manner similar to a private-sector business. The focus of the Statement of Net Position presents information on all of the Village's assets and liabilities, with the difference between the two reported as net position. This statement combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources management focus. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future.

Both of the government-wide financial statements (see pages 15 - 17) distinguish functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Village reflect the Village's basic services, including administration, public safety, highways and streets, and sanitation. The business-type activities include the operations of the water and sewer system.

VILLAGE OF KIRKLAND, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

---

### **Fund Financial Statements**

Traditional users of governmental financial statements will find the fund financial statements to be more familiar. The focus of presentation is on major funds rather than fund types. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into two categories: governmental funds and proprietary fund.

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances for the General Fund, Motor Fuel Tax Fund, Tax Incremental Financing Fund, and the Capital Projects Fund (had no activity in this fiscal year), each of which is considered to be a "major" fund.

The Village adopts an annual appropriation/budget for each of its governmental funds. Budgetary comparison statements have been provided elsewhere in the report to demonstrate compliance with the appropriation/budget. The basic governmental fund financial statements can be found on pages 18 – 21 of this report.

**Proprietary Funds.** The Village maintains one proprietary fund. The Water and Sewer Fund, an enterprise fund, is used to report the same type of information as presented as business-type activities in the government-wide financial statements, only in more detail. The enterprise fund is used to account for the operations of the Village's water and sewer system. The Water and Sewer Fund is considered to be a major fund of the Village.

VILLAGE OF KIRKLAND, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

---

The basic proprietary fund financial statements can be found on pages 22 - 24 of this report. Budgetary information for the Water and Sewer Fund, including sub-accounts for operations, water system improvements, and sewer system improvements are included elsewhere in this report.

**Infrastructure Assets**

Historically, a government's largest group of assets (infrastructure assets – roads, bridges, storm sewers, etc.) have not been reported nor depreciated in governmental financial statements. GASB Statement No. 34 requires that these assets be valued and reported within the Governmental Activities column of the government-wide statements. Additionally, the government must elect to: (1) depreciate the assets over their useful life; or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity (modified approach). The Village has chosen to depreciate assets over the useful life. If a road project is considered maintenance - a recurring cost that does not extend the original useful life or expand its capacity - the cost of the project will be expensed. An "overlay" of a road will be considered maintenance whereas a "rebuild" of a road will be capitalized.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25 - 46 of this report.

**Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information (RSI). The RSI includes schedules of revenues, expenditures, and changes in fund balance - budget and actual for the General Fund, Motor Fuel Tax Fund, Tax Incremental Financing Fund, and Revolving Loan Fund along with information concerning the Village's progress in funding its pension benefit obligations through the Illinois Municipal Retirement Pension Fund. Please see pages 47 - 53 of this report.

Additionally, certain supplemental schedules containing more detailed information on fund revenues and expenditures, capital assets, assessed valuations, and property tax rates and tax levies can be found on pages 54 – 75.

**Financial Analysis of the Village as a Whole**

In accordance with GASB Statement No. 34, a comparative analysis of government-wide information is presented in the government-wide financial statements on pages 15 – 17 and summarized on the next two pages:

VILLAGE OF KIRKLAND, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

**GOVERNMENT-WIDE STATEMENTS**

**Statement of Net Position**

Net position may serve over time as a useful indicator of a government's financial position. The following table shows the net position of the Village of Kirkland as of April 30, 2021.

A significant portion of the Village's net position (77%) reflects its net investment in capital assets less any related outstanding debt used to acquire those assets. Approximately 7% of net position represents resources subject to restrictions on how they may be used, and about 16%, or \$797,424, represents unrestricted net position and may be used to meet the Village's ongoing obligations. During the fiscal year ended April 30, 2021, unrestricted net position of governmental activities decreased \$28,220 and business-type net position decreased \$131,969 for an overall decrease of \$160,189.

VILLAGE OF KIRKLAND, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

---

**CURRENT YEAR FINANCIAL IMPACTS**

**Governmental Activities**

***Revenues***

Total revenues for the Village's governmental activities for the fiscal year ended April 30, 2021 were \$1,333,414. This total includes \$191,856 in "operating grants" that represent state shared motor fuel taxes and grant revenue related to the CARES Act. In comparison to the prior year, total revenues decreased \$213,829 primarily because of a decrease in property taxes with the termination of the TIF District.

The revenue mix, received in the fiscal year ended April 30, 2021, represents a relatively diverse revenue base. About 33% of revenues were provided by service charges and operating grants, 19% from property taxes, 22% from state shared revenues, 14% from sales taxes, 7% from utility taxes, and 5% from other sources.

State-shared revenues including state income tax, use tax, video gaming tax, and personal property replacement tax totaled \$296,276 in the fiscal year ended April 30, 2021, an increase of \$13,344 from the previous year. However, sales tax revenues of \$189,381 decreased \$15,769, or about 8% from the previous fiscal year.

***Expenses***

Total expenses for the Village's governmental activities for the fiscal year ended April 30, 2021 were \$1,263,612. As required by GASB Statement No. 34, total expenses include depreciation but it excludes expenditures for capital assets. The largest functional expense was highways and streets at \$487,486. This amount was followed by \$322,158 for public safety, \$265,840 for general government, \$179,285 for sanitation (refuse disposal) and \$8,843 for interest expense. Overall, total revenues in governmental activities exceeded total expenses by \$69,802.

VILLAGE OF KIRKLAND, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

---

**Business-Type Activities**

***Revenues***

Total revenues for the Village's business-type activities for the fiscal year ended April 30, 2021 were \$371,433 solely from water and sewer charges. Charges for water and sewer service provided about 74% of total related business-type expenses including depreciation.

***Expenses***

Total expenses, including depreciation of \$90,530, for the Village's business-type activities for the fiscal year ended April 30, 2021 were \$504,536. During the year, the net position of business-type activities decreased \$133,103.

**FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS**

As noted earlier, the Village of Kirkland uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As of April 30, 2021, the governmental funds (as presented on the balance sheet on page 20) had combined fund balances of \$816,112. This represents an overall decrease of \$129,781 from prior year fund balances. The General Fund decreased \$48,607. The Motor Fuel Tax Fund increased \$74,096, along with a decrease in the Tax Increment Financing Fund of \$155,270.

The total net position of the Water and Sewer Fund decreased from \$1,817,072 at April 30, 2020 to \$1,683,969 at April 30, 2021, a decrease of \$133,103. However, of greater significance is the unrestricted portion of net position of the Water and Sewer Fund which decreased \$131,969. The total amount of unrestricted net position, which represents net working capital, as of April 30, 2021 was \$316,877 compared to \$448,846 as of April 30, 2020.

The revenues of the Village have been impacted by the stagnation in the general economy and especially by the slowdown in the residential housing market. The slowdown in the residential housing market has resulted in a reduction in permit fees, water and sewer tap on fees, and expected increases in water and sewer operating revenues. A bright spot in the Village's revenue picture is the increase in sales tax, which jumped about 85% during the 2014/2015 fiscal year and has continued to increase with a 16% increase in the 2016/2017 fiscal year, an additional 12% in the 2017/2018 fiscal year, an additional 36% in the 2018/2019 fiscal year, and an additional 6% in the 2019/2020 fiscal year. The expiration of the TIF district greatly reduced the amount of property taxes collected by the Village.

The available balances of each of the Village funds appear to be adequate as of April 30, 2021 for working cash and contingencies.

The table on the following page shows the appropriation amounts and the actual revenues and expenditures for the General Fund:

VILLAGE OF KIRKLAND, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The General Fund total expenditures exceeded total revenue by \$168,607 and loan proceeds from a note payable to Resource Bank of \$120,000 increase fund balance. The fund balance decreased from \$522,664 to \$474,057.

The fund balance of the General Fund of \$474,057 compared to total expenditures of \$1,381,525 represents a fund balance to expenditures ratio of 37.8%. A fund balance to expenditures ratio in excess of 50% in a municipality the size of Kirkland indicates a relatively good financial position. Expenditures in fiscal year 2019/2020 were unusually high due to the Bull Run Creek Construction, purchase of land, and purchase of two police vehicles.

**CAPITAL ASSETS**

The following schedule reflects the Village's capital asset balances as of April 30, 2021.

Table 4  
**Capital Assets**  
As of April 30, 2021  
(With Comparative Actual for 2020)

	2021		Totals	2020 Totals
	Governmental Activities	Business-Type Activities

Water and Sewer System	-	1,770,207	1,770,207	1,721,183
Sewer Treatment Plant	-	1,038,181	1,038,181	1,038,181
<b>Total Capital Assets</b>				
Excluding Depreciation	<u>4,286,534</u>	<u>3,430,712</u>	<u>7,717,246</u>	<u>7,294,383</u>
Less:				
Accumulated Depreciation	<u>1,304,466</u>	<u>2,063,620</u>	<u>3,368,086</u>	<u>3,116,788</u>
<b>Total Capital Assets</b>	<u><u>\$2,982,068</u></u>	<u><u>\$1,367,092</u></u>	<u><u>\$4,349,160</u></u>	<u><u>\$4,177,595</u></u>

At year-end, the Village's investment in capital assets (net of accumulated depreciation) for both its governmental and business-type activities was \$4,349,160 (see note 3 in the Notes to the Financial Statements for further information regarding capital assets). During the fiscal year ended April 30, 2021, there were several asset additions including a land purchase, two new police vehicles, and new equipment. Additional information on the Village's capital assets can be found on pages 36 - 37 of the notes to the financial statements.

VILLAGE OF KIRKLAND, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

**LONG-TERM DEBT**

During the 2016 fiscal year the Village obtained an installment note for \$165,000 for five years to purchase property that was in a flood plain. This note was paid off in the year ending April 30, 2021. During the 2018 fiscal year the Village entered into an agreement with the DeKalb County Sheriff's Department to pay for new communications equipment required because of upgrades throughout the county in the amount of \$15,431. This note was paid off in the year ending April 30, 2021. During the 2019 fiscal year the Village obtained an installment note for \$78,468 for the purchase of two public works trucks. As of April 30, 2020 the balance of this note was \$63,898. This note was paid off in the year ending April 30, 2021 with proceeds from the new vehicle loan. During the 2020 fiscal year the Village obtained an IEPA loan for the construction required on Bull Run Creek. The Village as approved up to \$934,698 however only \$452,822 was drawn from the loan as of April 30, 2021. The IEPA agreement states 15% of this loan will be forgiven. As of April 30, 2021 \$85,723 of the loan balance was forgiven. During the current fiscal year the Village obtained an installment note for \$120,000 to pay off the truck loan noted above and provide funds for two new police vehicles. There is no debt outstanding for the Business-Type Activities. The table below compares the Village's outstanding long-term debt as of April 30, 2020 and April 30, 2021.

Table 5  
**Long-Term Debt**  
As of April 30, 2021  
(With Comparative Actual for 2020)

	2021			2020 Total
	Governmental Activities	Business-Type Activities	Total	
Bull Run Property Note	\$ -	\$ -	\$ -	\$ 26,309
Note Payable - Trucks	-	-	-	63,898
Note Payable - Vehicles	105,785	-	105,785	-
IEPA Loan - Bull Run Construction	353,086	-	353,086	367,099
DeKalb County Sheriff Note	-	-	-	11,573
<b>Total Long-Term Debt</b>	<b>\$ 458,871</b>	<b>\$ -</b>	<b>\$ 458,871</b>	<b>\$ 468,879</b>

The Village has used general revenues to pay the annual principal and interest for the general obligation debt. A flat fee has been added to the bi-monthly utility bills to repay the IEPA loan.

VILLAGE OF KIRKLAND, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

---

**ECONOMIC FACTORS**

**Economic Outlook**

The Village of Kirkland faces uncertainty of the long-term impact of the COVID-19 pandemic. For the first time in several fiscal years sales tax revenue declined. The Village is seeking opportunities for economic growth and development into the future through commercial and residential development. Fortunately, adequate fund balance and diverse revenue streams will allow the Village to continue normal operations in the near term.

**Challenges**

*Waste Water Treatment Plant* –With the possibility of future development to the west of the existing Village limits and future growth limitations caused by the age and capacity of the existing WWTP, the Village Board will continue to explore solutions for this concern.

*Police department funding* – Police department funding continues to be a concern for Village management and elected officials. Concerns regarding limited space and manpower due to funding limitations are one of the major issues facing the Village Board. The limitation of available funds has been exacerbated by the current slowdown in the economy and will be one of the challenges during the coming year.

*Growth plans* – The support of local business expansion efforts and attracting new businesses and developers will remain a strong consideration for Village officials. Although residential building is presently at a standstill, the Village is positioning itself to be able to provide necessary Village services to potential developers when the opportunity presents itself.

**CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the Village's finances and to demonstrate accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to: Village Treasurer, Village of Kirkland, 511 W. Main Street, Kirkland, Illinois 60146.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Kirkland, Illinois (the Village), established in 1882, is a municipal corporation governed by an elected President and six-member Board of Trustees. The Village’s major operations include public safety, street and sidewalk maintenance, public improvements, planning and zoning, water and sewer services and general administrative services.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Village’s accounting policies established in GAAP and used by the Village are described below.

REPORTING ENTITY

In determining the financial reporting entity, the Village complies with the provisions of GASB Statements and includes all component units that have a significant operational or financial relationship with the Village. Based upon the criteria set forth in the GASB Statements, there are no component units included in the reporting entity.

BASIS OF PRESENTATION

*Government-Wide Statements*

The Village’s basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village’s major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Village’s public safety, highway and street maintenance and reconstruction, building code enforcement, public improvements, economic development, planning and zoning, and general administrative services are classified as governmental activities. The Village’s water and sewer services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are: (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Village’s net position is reported in three parts: net investment in capital assets; restricted net position; and unrestricted net position. The Village first utilizes restricted resources to finance qualifying activities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

***Government-Wide Statements*** – Continued

The government-wide Statement of Activities reports both the gross and net cost of each of the Village's functions (general government, public safety, streets and sidewalks, etc.) and business-type activities. The functions are supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (general government, public safety, streets and sidewalks, etc.) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property tax, sales tax, intergovernmental revenues, interest income, etc).

This government-wide focus is more on the sustainability of the Village as an entity and the change in the Village's net position resulting from the current year's activities.

***Fund Financial Statements***

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. In addition to funds that meet the minimum criteria as a major fund, the Village may designate other funds as a major fund. The Village electively added funds, as major funds, which had a specific community focus. The Village has chosen to include the Motor Fuel Tax Fund and the Revolving Loan Fund as major funds even though the fund calculations do not classify them as major funds. The Village views these funds particularly important to financial report users.

The various funds are reported by generic classification within the financial statements. The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. Following is a description of the fund types of the Village:

VILLAGE OF KIRKLAND, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

***Governmental Funds***

The General Fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Village maintains two major special revenue funds, the Motor Fuel Tax Fund and the Tax Incremental Financing District Fund.

The Capital Projects Fund is used to account for the proceeds of capital-specific grants and expenditures from these resources. The Village has elected to report this fund as a major governmental fund.

***Proprietary Funds***

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the Village:

Enterprise Funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The Village maintains one major enterprise fund, the Water and Sewer Fund, which is used to account for the provision of potable water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, improvements and extensions, financing and related debt service, billing and collection.

***Fiduciary Funds***

Fiduciary funds are used to report assets held in agency capacity for others and therefore are not available to support Village programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds. The Village does not maintain any fiduciary funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

***Measurement Focus***

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied. On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate.

All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

All proprietary funds utilize an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Fiduciary funds held in agency capacity for others are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

***Basis of Accounting***

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end.

The Village recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty day availability period is used for revenue recognition for all other governmental fund revenues.

VILLAGE OF KIRKLAND, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

***Basis of Accounting*** – Continued

Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest, if any, which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, franchise taxes, licenses, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary and agency funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Village's enterprise fund, are charges to customers for sales and services. The Village also recognizes as operating revenue the portion of tap-on fees intended to recover the cost of connecting new customers to the system. Operating expenses, excluding depreciation, include the cost of sales and services and administrative expenses. Depreciation on capital assets is reported as a separate amount in the determination of operating income. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

ASSETS, LIABILITIES, AND NET POSITION OR EQUITY

***Cash and Investments***

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, and cash with fiscal agent. For the purpose of the proprietary funds "Statement of Cash Flows", cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have any established market, if any, are reported at estimated fair value.

VILLAGE OF KIRKLAND, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS, LIABILITIES, AND NET POSITION OR EQUITY - Continued

***Receivables***

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes, sales and use taxes, utility taxes, and charges for refuse disposal. Business-type activities report utility charges as their major receivables.

***Internal Receivables, Payables and Activity***

Internal activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as internal receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other internal transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

***Prepays***

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaids.

***Inventories***

Inventories, if any, are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased.

***Capital Assets***

Equipment and vehicles purchased or acquired with an original cost of \$500 or more and infrastructure improvements of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred.

VILLAGE OF KIRKLAND, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS, LIABILITIES, AND NET POSITION OR EQUITY – Continued

*Capital Assets* - Continued

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Village as a whole. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs. Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are capitalized at estimated fair market value on the date donated. Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Improvements	10 - 50 Years
Water and Sewer Distribution System	20 - 50 Years
Vehicles and Equipment	5 - 30 Years

*Unearned / Unavailable Revenues*

Governmental funds report unearned revenue and unavailable revenue on its financial statements. Unearned revenues arise when resources are received before the Village has a legal claim to them or prior to the provision of services. Unavailable revenues arise when a potential revenue does not meet both the measurable and available or earned criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability and deferred inflows of resources for unearned and unavailable revenue are removed from the financial statements and revenue is recognized.

*Deferred Outflows / Inflows of Resources*

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the Statement of Financial Position will sometimes report a separate section for deferred inflows of resources. This separate element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS, LIABILITIES, AND NET POSITION OR EQUITY – Continued

***Fund Equity***

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position - Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted net position - All other net assets that do not meet the definition of “restricted” or “net investment in capital assets”.

In the fund financial statements, governmental funds report equity as fund balances and displayed in three components:

Restricted – Consists of amounts that are constrained by legal restrictions from outside parties for a specific purpose, or externally imposed by outside entities.

Assigned – Consists of amounts constrained by the Village’s intent to use them for a specific purpose. The authority to assign fund balance is vested with the Board of Trustees.

Unassigned – Any residual positive fund balance is reported as unassigned in the General Fund. In governmental funds other than the General Fund, any deficit fund balance is also reported as unassigned.

The Village’s flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the Village considers committed funds to be expended first followed by assigned and then unassigned funds.

NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

ASSETS, LIABILITIES, AND NET POSITION OR EQUITY – Continued

**Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Illinois Municipal Retirement Fund (IMRF) and additions to/deductions from IMRF's fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**BUDGETARY INFORMATION**

All departments of the Village submit requests for budgets so that an appropriation ordinance may be prepared. The appropriation ordinance is prepared by fund and function, and includes approved appropriations for the next fiscal year.

The proposed appropriation ordinance is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations. All appropriations are adopted on a basis consistent with generally accepted accounting principles (GAAP). The appropriation ordinance may be amended by the governing body. Expenditures may not legally exceed appropriation allocations at the fund level. The appropriation lapses at the end of each fiscal year.

**NOTE 3 – DETAIL NOTES ON ALL FUNDS**

**PROPERTY TAXES**

Property taxes attach as an enforceable lien on January 1 on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about June 1, and September 1. The County collects such taxes and remits them periodically. The 2019 Tax Levy Ordinance, adopted in December 2019, and collected in 2020, was used to finance the fiscal year ended April 30, 2021. The 2020 Tax Levy Ordinance, adopted in December 2020, is recorded as a receivable and unavailable revenue in the financial statements for the year ended April 30, 2021.

VILLAGE OF KIRKLAND, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 3 – DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds except the Motor Fuel Tax Fund. Each fund type's portion of this pool is displayed on the financial statements as "cash and cash equivalents". In addition, investments may be held separately by each of the Village's funds.

Permitted Deposits and Investments - Statutes authorize the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services and Illinois Funds.

Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Although not registered with the SEC, Illinois Funds does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Deposits in Illinois Funds are valued at the share price, the price for which the investment could be sold.

***Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk***

*Deposits.* At year-end, the carrying amount of the Village's deposits for governmental and business-type activities totaled \$80,471 and the bank balances totaled \$83,234. Additionally, the Village had \$1,060,572 deposited in the Illinois Funds.

*Interest Rate Risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Village officials recognize that safety of principle is the foremost objective of the Village's investment program. Officials additionally follow the principle that the investment portfolio will remain sufficiently liquid to enable the Village to meet all operating requirements which might be reasonably anticipated. Finally, the investment program has been designed with the objective of attaining a market rate of return throughout budgetary and economic cycles. All Village investment transactions must be specifically approved by the Finance Committee of the Village Board of Trustees. The Village's investment in the Illinois Funds has an average maturity of less than one year.

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Accordingly, the Village's investment portfolio only includes securities authorized under State Statute. The Village's investment in the Illinois Funds were rated AAA by Standard & Poor's.

VILLAGE OF KIRKLAND, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 3 – DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

***Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk*** - Continued

*Custodial Credit Risk.* In the case of deposits, this is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. All funds on deposit in banks in excess of FDIC limits should be secured by some form of collateral. Furthermore, pledged collateral should be held by the Village or in safekeeping evidenced by a safekeeping agreement. For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The Village's investment policy requires collateral on all funds on deposit in banks in excess of the FDIC insurance. At year-end all deposits were covered by FDIC insurance or collateral held by the Village or in safekeeping in the Village's name.

*Concentration of Credit Risk.* This is the risk of loss attributed to the magnitude of the Village's investment in a single issuer. The Village's investment policy recommends diversification to minimize this risk. However, the Village does not require diversification for funds on deposit with a financial institution that are covered by FDIC insurance or collateral. At year-end, the Village maintained deposit accounts with five banks and the Illinois Funds: 7% of deposits were with Midland States Bank, Kirkland, Illinois, 3% with Resource Bank, Kirkland, Illinois, 12% with Heartland Bank, Genoa, Illinois, and less than 1% with Blackhawk Bank and Illinois National Bank, and 78% with Illinois Funds.

***Debt Limitation***

The Village is subject to a debt limitation of 8.625% of its assessed valuation of \$28,217,764. As of April 30, 2021, the Village had a debt limit of \$2,433,782, but no general obligation outstanding debt.

***Authorized Debt Not Yet Issued***

On December 26, 2018 the Illinois Environmental Protection Agency (IEPA) authorized a loan in the amount of \$934,698 to be used for engineering and construction costs related the Bull Run Creek Project. As of April 30, 2021 \$452,822 had been drawn on the loan. A final draw of \$95,435 was taken on May 27, 2021 (see additional information under Subsequent Events in Note 5).

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

INTERNAL ACCOUNTS

*Interfund Balances*

There were no loans between funds as of April 30, 2021.

NOTE 4 – DEFINED BENEFIT PENSION PLAN

**Plan Description** - The employer's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The employer's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multiple-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download on-line at [www.imrf.org](http://www.imrf.org).

**Benefits Provided** – IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriff's, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF plans have two tiers. Employees hired *before* January 1 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96.

VILLAGE OF KIRKLAND, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 4 – DEFINED BENEFIT PENSION PLAN – Continued

**Benefits Provided – Continued**

Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount

**Employees Covered by the Benefit Terms** – At the December 31, 2020 valuation date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	5
Inactive employees entitled to but not yet receiving benefits	6
Active employees	<u>6</u>
Total	<u><u>17</u></u>

**Contributions** – As set by statute, the employer’s Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village’s annual contribution rate for calendar year 2020 was 6.33%. For the fiscal year ended April 30, 2021, the Village contributed \$24,913 to the plan. The employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

**Net Pension Liability** – The employer’s Net Pension Liability was measured as of December 31, 2020, and the total pension liability used to calculate the Net Pension Liability was determined by an annual actuarial valuation as of that date.

VILLAGE OF KIRKLAND, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 4 – DEFINED BENEFIT PENSION PLAN – Continued

**Actuarial Assumptions** – The following are the methods and assumptions used to determine total pension liability at December 31, 2020:

The **Actuarial Cost Method** used was Aggregate Entry Age Normal.

The **Asset Valuation Method** used was Market Value of Assets.

The **Inflation rate** used was 2.25%.

**Salary Increases** were expected to be 2.85% to 13.75%, including inflation.

The **Investment Rate of Return** was assumed to be 7.25%.

**Projected Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2020 valuation according to an experience study from years 2017-2019.

The IMRF-specific rates for **Mortality** (for non-disabled retirees) were based on an IMRF specific mortality table used with the fully generational projection scale MP-2020. For **Disabled Retirees**, an IMRF-specific mortality table was used with fully generational projection scale MP-2020. The IMRF-specific rates were developed from the MP-2020 Employee Mortality Table, applying the same adjustments that were applied for non-disabled lives.

For **Active Members**, an IMRF-specific mortality table was used with fully generational projection scale MP-2020.

**Single Discount Rate** – A single discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index on 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.00%, and the resulting single discount rate is 7.25%.

NOTE 4 – DEFINED BENEFIT PENSION PLAN – Continued

**Pension Plan Fiduciary Net Position** – Detailed information about the pension plan’s fiduciary net position is available in the issued IMRF annual financial report which is publicly available at [www.imrf.org](http://www.imrf.org).

**Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions** - For the year ended April 30, 2021, the Village recognized a pension expense of \$24,913. At April 30, 2021 the Village had deferred outflows of resources and deferred inflows of resources related to pensions from the following sources to be recognized in future pension expenses:

	Deferred Outflows of Resources	Deferred Inflows of Resources	Net Deferred Inflows of Resources
Difference Between Expected and Actual Experience	\$ 48,007	\$ 16,427	\$ 31,580
Changes In Assumptions	-	12,994	(12,994)
Net Difference Between Projected and Actual Earnings	64,760	181,754	(116,994)
Employer Contributions Subsequent to the Measurement Date	8,906	-	8,906
<b>Total</b>	<b>\$ 121,673</b>	<b>\$ 211,175</b>	<b>\$ (89,502)</b>

The Village reported \$8,906 as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the reporting year ending April 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

2020	\$ (30,309)
2021	(1,816)
2022	(46,842)
2023	(19,441)
2024	-
Thereafter	-
<b>Total</b>	<b>\$ (98,408)</b>

VILLAGE OF KIRKLAND, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 5 – OTHER INFORMATION

RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Village's employees. These risks are provided for through a limited self-insurance program. The Village currently reports its risk management activities in the General Fund and the Water and Sewer Fund.

The Village participates in the Illinois Municipal League Risk Management Association (IMLRMA). IMLRMA is an organization of municipalities and special districts in Illinois which have formed an association under the Illinois Intergovernmental Cooperation Statute to pool its risk management needs. The association administers a mix of self-insurance and commercial insurance coverage; property/casualty and workers' compensation claim administration and litigation management service; risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

IMLRMA is governed by a board of directors made up of Illinois mayors and village presidents of municipalities who participate in the program. The Village does not exercise any control over the activities of IMLRMA beyond its representation on the board of directors. Annual contributions are determined each year by underwriters based on the individual member's exposure to loss and experience modification factors based on past member loss experience. There have been no significant reductions in insurance coverage from the prior year. Settlements have not exceeded insurance coverage in each of the last three fiscal years.

POSTEMPLOYMENT BENEFITS

The Village has evaluated its potential other postemployment benefits liability. The Village provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with Illinois statutes, which creates an implicit subsidy of retiree health insurance. Former employees who choose to retain their rights to health insurance through the Village are required to pay 100% of the current premium. However, no former employees have chosen to stay in the Village's health insurance plan. Therefore, there has been 0% utilization and, therefore, no implicit subsidy to calculate in accordance with GASB Statement No. 45, *Accounting and Financial Reporting By Employers for Postemployment Benefits Other Than Pensions*. Additionally, the Village has no former employees for which the Village was providing an explicit subsidy and no employees with agreements for future explicit subsidies upon retirement. Therefore, the Village has not recorded any postemployment benefit liability as of April 30, 2021.

VILLAGE OF KIRKLAND, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
April 30, 2021

---

NOTE 5 – OTHER INFORMATION - Continued

TORT INSURANCE EXPENDITURES

The Village allocated the total amount of the tort insurance levy of \$19,790 received in the year ended April 30, 2021 towards tort insurance expenditures for the year, resulting in no restricted balances for tort as of April 30, 2021.

CONTINGENT LIABILITIES

*Litigation*

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the Village's attorney that the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

*Grants*

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date of this report. On May 27, 2021 the Village received the final draw on the IEPA Loan related to the Bull Run Creek Construction project of \$95,435.

VILLAGE OF KIRKLAND, ILLINOIS

NOTES TO MULTIYEAR SCHEDULE OF CONTRIBUTIONS

SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS  
USED IN THE CALCULATION OF THE 2020 CONTRIBUTION RATE (1)

April 30, 2021

---

**Valuation Date:**

Notes Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

**Methods and Assumptions Used to Determine 2020 Contribution Rates:**

Actuarial Cost Method	Aggregate Entry Age Normal.
Amortization Period	Level Percentage of Payroll, Closed.
Remaining Amortization Period	Non-Taxing Bodies: 10-year rolling period. Taxing bodies (Regular, SLEP and ECO groups): 23-year closed period Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI. SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 20 years for most employers (three employers were financed over 27 year and four others were financed over 28 years).
Asset Valuation Method	5-year smoothed market; 20% corridor.
Wage Growth	3.25%.
Price Inflation	2.50%
Salary Increases	3.35% to 14.25% including inflation
Investment Rate of Return	7.25%.
Retirement Age	Experienced-based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014 - 2016.
Mortality	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjusts to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustment to match current IMRF experience.

**Other Information:**

Notes There were no benefit changes during the year.

*(1) Based on Valuation Assumptions used in the December 31, 2018 actuarial valuation.*

The Village Of Kirkland Implemented GASB Statement No. 68 April 30, 2016	- 52 -						

VILLAGE OF KIRKLAND, ILLINOIS

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

April 30, 2021

---

a. Budgets

Budgets are adopted on a basis consistent with generally accepted accounting principles, except the proprietary funds which adopt a current financial resources measurement focus budget in that depreciation is not budgeted and capital outlay is budgeted. Annual appropriated budgets are adopted for the General, Special Revenue, and Enterprise Funds. All annual appropriations lapse at fiscal year end.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget.

The treasurer is authorized to transfer amounts between departments within any fund; however, any revisions that alter total expenditures of any fund must be approved by the governing body. Expenditures may not legally exceed budgeted appropriations at the fund level. The final budget figures included in this report do not include any amendments increasing the original budget amount.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE

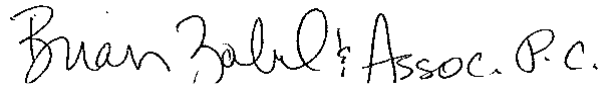

To the Board of Trustees  
Village of Kirkland, Illinois  
Kirkland, Illinois

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the Village of Kirkland, Illinois, (the "Village") TIF District Funds, which comprise the balance sheet as of April 30, 2021, and the related statement of revenues, expenditures and changes in fund balance for the year then ended, and have issued our report thereon, dated December 3, 2021.

We have also audited the Village's compliance with the provisions of subsection (q) of Section 11-74.4-3 of the *Illinois Tax Increment Redevelopment Allocation Act* (Illinois Public Act 85-1142) for its TIF District Funds. The management of the Village of Kirkland, Illinois is responsible for the Village's compliance with those requirements.

Our responsibility is to express an opinion on compliance with those requirements. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Village complied in all material respects with the requirements referred to above. An audit includes examining, on a test basis, evidence about the Village of Kirkland, Illinois' compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the Village of Kirkland, Illinois complied, in all material respects, with the requirements of subsection (q) of Section 11-74.4-3 of the *Illinois Tax Increment Redevelopment Allocation Act* (Illinois Public Act 85-1142) for its TIF District Funds.
