INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Village of Kirkland, Illinois 60146

Opinions

We have audited the accompanying financial statements of the governmental activities, business-type activities, and each major fund of the Village of Kirkland, Illinois, as of and for the year ended April 30, 2025, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Village of Kirkland, Illinois, as of April 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are required to be independent of the Village and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the retirement plan information in Schedule 1, the budgetary comparison information in Schedules 2 and 3, and Notes to Budgetary Comparison Schedules be presented to supplement the basic financial statements, as listed as *Required Supplementary Information* in the table of contents. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Kirkland's basic financial statements. Schedules 4 and 5 detailed as *Supplementary Information* in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules identified above as *Supplementary Information* are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

VILLAGE OF KIRKLAND
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended April 30, 2025

Net Change in Fund Balances - Total Governmental Funds	\$	87,848
The amount by which depreciation (\$220,059) was less than capital outlays (\$410,940) in the current period. (Governmental Funds report capital outlays as expenditures and do not report depreciation. In the government-wide statement of activities the cost of the purchased capital assets is reported as depreciation expense over the estimated useful lives of the assets.)		190,881
The amount by which debt service exceeded interest paid. (Governmental Funds report debt service interest paid and debt service principal payments as expenditures. In the government-wide statement of activities the cost of the debt service interest paid is reported as Interest on Long-Term Debt as a functional expenditure. Principal paid reduces the long-term liability and, in turn, is not recorded as an expenditure.)		224,536
The amount of debt issued during the year (Governmental Funds report debt issued as revenue in the year of issuance. In the government-wide state of net position the issuance of debt is recorded as a long-term liability and is not recorded as revenue on the statement of activities)		(315,000)
The change in Net Pension Liability and related Deferred Inflows/Outflows. (Governmental Funds do not report expenditures that do not require current use of financial resources.)		<u>94,378</u>
Change in Net Position of Governmental Activities	\$	<u>282,643</u>

See accompanying notes to basic financial statements.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 1 - **Summary of Significant Accounting Policies**

A. General

The Village of Kirkland, Illinois (the Village), established in 1882, is a municipal corporation governed by an elected President and six-member Board of Trustees. The Village's major operations include public safety, street and sidewalk maintenance, public improvements, planning and zoning, water and sewer services and general administrative services.

For the year ended April 30, 2025, the financial statements are being presented in compliance with Governmental Accounting Standards Board (GASB) Statement No. 34 as described in more detail in Note 1C.

B. Reporting Entity

The Village of Kirkland, Illinois, includes all of the funds and account groups relevant to the operation of the Village in the financial statements reported herein.

The criteria of GASB pronouncements have been considered in determining the activities to be included in this report. The Village has determined that no other agency is a component of the Village and the Village is not a component of any other entity.

C. Basis of Accounting

The Village maintains its accounting records on the modified accrual/accrual basis of accounting. In the government-wide financial statements, the accrual basis is used, and revenues are recognized when earned and expenses are recognized when the related liability is incurred. In the fund financial statements, the modified accrual basis is used, except for the property tax receivable that is discussed below. Under the modified accrual basis, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within 60 days. Expenditures are recognized when the related liability is incurred. All revenue and expense accounts are subject to accrual.

Property tax receivable and a balancing deferred inflows of resources are recorded in the government-wide statement of net position and in the fund financial statements. These amounts are measurable but not available.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 1 - **Summary of Significant Accounting Policies (Continued)**

D. Basic Financial Statements – Government-Wide Statements

The Village’s basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village’s major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are presented on a consolidated basis by column and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Village’s net positions are reported in four parts: net investment in capital assets; restricted - nonspendable; restricted net position; and unrestricted net position. Fiduciary funds are not included in government-wide statements.

The government-wide Statement of Activities reports both the gross and net cost of each of the Village’s functions and business-type activities. The functions are also supported by general government revenues. The Statement of Activities reduces gross expenses by related program revenues and operating and capital grants. Program revenues must be directly associated with the function or business-type activity. Operating grants include operating-specific and discretionary grants while the capital grants column reflects capital-specific grants.

The Village does not allocate indirect costs. The government-wide focus is more on the sustainability of the Village as an entity and the change in its net position resulting from the current year’s activities.

As a general rule the effect of internal activity has been eliminated from the government-wide financial statements.

E. Basic Financial Statements—Fund Financial Statements

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues, and expenditures or expenses. The various funds are reported by generic classifications within the financial statements. The Village has elected to treat all funds as major funds.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 1 - **Summary of Significant Accounting Policies (Continued)**

E. Basic Financial Statements—Fund Financial Statements (Continued)

1. Governmental Funds:

The focus of the governmental funds' measurement is upon determination of financial position and changes in financial position rather than upon net income. The following is a description of governmental fund types:

- a. General Fund is the general operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Village has one Special Revenue Fund: the Motor Fuel Tax Fund.
- c. Debt Service Funds are used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt for governmental funds. The Village has no Debt Service Funds.
- d. Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Village has no Capital Projects Funds.

2. Proprietary Funds:

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed through user charges. The Village has three Enterprise Funds: the Water and Sewer Operating Fund, which accounts for water service and sewage treatment service; Water Improvement Fund, which accounts for improvements and repair to the water system; and the Sewer Improvement Fund, which accounts for improvements and repair to the sewer system.

3. Fiduciary Funds:

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support Village programs. The reporting focus is on net position. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. The Village has no fiduciary funds.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 1 - **Summary of Significant Accounting Policies (Continued)**

F. Budgets and Budgetary Accounting

All departments of the Village submit requests for budgets so that an appropriation ordinance may be prepared. The appropriation ordinance is prepared by fund and function, and includes approved appropriations for the next fiscal year.

The proposed appropriation ordinance is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations. All appropriations are adopted on a basis consistent with generally accepted accounting principles (GAAP). The appropriation ordinance may be amended by the governing body. Expenditures may not legally exceed appropriation allocations at the fund level. The appropriation lapses at the end of each fiscal year.

G. Capital Assets

Equipment and vehicles purchased or acquired with an original cost of \$500 or more and infrastructure improvements of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Village as a whole. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs. Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are capitalized at estimated fair market value on the date donated. Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Improvements 10 - 50 Years
Water and Sewer Distribution System 20 - 50 Years
Vehicles and Equipment 5 - 30 Years

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 1 - **Summary of Significant Accounting Policies (Continued)**

H. Revenue and Expenses

Program revenues in government-wide financial statements generally include fees, rentals, fines, and other specifically levied revenues. In proprietary funds, operating revenues and expenses are distinguished from non-operating items because they are clearly traceable to the functioning of the specific service provided to the customers.

I. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates are also made regarding the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

J. Cash and Investments

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, and cash with fiscal agent. For the purpose of the proprietary funds "Statement of Cash Flows", cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have any established market, if any, are reported at estimated fair value.

K. Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes, sales and use taxes, utility taxes, and charges for refuse disposal. Business-type activities report utility charges as their major receivables.

L. Restricted and Unrestricted Resources

When an expense is incurred in which both restricted and unrestricted net position/fund balances are available, it is the Village's policy to first apply the restricted resources.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 1 - **Summary of Significant Accounting Policies (Continued)**

M. Fund Balance Classification

In order to comply with GASB 54, the Village is adhering to the fund balance classification requirements. Fund balances in the fund financial statements will now be classified as follows:

- a. Nonspendable – Fund balances should be considered to be nonspendable if funds are not in spendable form, or are legally or contractually required to be maintained intact. The Village does not have any nonspendable fund balances.
- b. Restricted – Fund balances should be considered to be restricted when constraints placed on funds are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. The Village has \$0 of restricted fund balances in the General Fund, see Note 4. All fund balances in the Motor Fuel Tax Fund are restricted.
- c. Committed – Fund balances should be considered to be committed if funds can only be used for specific purposes as a result of constraints imposed by formal action of the Village’s Board of Trustees. The Village does not have any committed fund balances.
- d. Assigned – Fund balances should be considered to be assigned if amounts that are constrained by the Village’s intent to be used for specific purposes, but are neither restricted nor committed. The Village does not have any assigned fund balances.
- e. Unassigned – Fund balances should be considered to be unassigned if they are a portion of the General fund balances that have not been considered to be restricted, committed, or assigned to specific purposes.

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 2 - **Deposits and Investments**

The Village maintains a cash and investment pool that is available for use by all funds except the Motor Fuel Tax Fund. Each fund type's portion of this pool is displayed on the financial statements as "cash and cash equivalents". In addition, investments may be held separately by each of the Village's funds.

Permitted Deposits and Investments - Statutes authorize the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services and Illinois Funds.

Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Although not registered with the SEC, Illinois Funds does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Deposits in Illinois Funds are valued at the share price, the price for which the investment could be sold.

Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

Deposits. At year-end, the carrying amount of the Village's deposits for governmental and business-type activities totaled \$66,287. Additionally, the Village had \$641,653 deposited in the Illinois Funds.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Village officials recognize that safety of principle is the foremost objective of the Village's investment program. Officials additionally follow the principle that the investment portfolio will remain sufficiently liquid to enable the Village to meet all operating requirements which might be reasonably anticipated. Finally, the investment program has been designed with the objective of attaining a market rate of return throughout budgetary and economic cycles. All Village investment transactions must be specifically approved by the Finance Committee of the Village Board of Trustees. The Village's investment in the Illinois Funds has an average maturity of less than one year.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Accordingly, the Village's investment portfolio only includes securities authorized under State Statute. The Village's investment in the Illinois Funds were rated AAA by Standard & Poor's. Although not subject to regulatory oversight, the fund is administered in accordance with the provisions of the Illinois Public Funds Investment Act, 30 ILCS 235.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 2 - **Deposits and Investments (Continued)**

Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. All funds on deposit in banks in excess of FDIC limits should be secured by some form of collateral. Furthermore, pledged collateral should be held by the Village or in safekeeping evidenced by a safekeeping agreement. For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The Village's investment policy requires collateral on all funds on deposit in banks in excess of the FDIC insurance. At year-end all deposits were covered by FDIC insurance or collateral held by the Village or in safekeeping in the Village's name.

Concentration of Credit Risk. This is the risk of loss attributed to the magnitude of the Village's investment in a single issuer. The Village's investment policy recommends diversification to minimize this risk. However, the Village does not require diversification for funds on deposit with a financial institution that are covered by FDIC insurance or collateral. At year-end, the Village maintained deposit accounts with three banks and the Illinois Funds: Resource Bank, Kirkland, Illinois; Illinois National Bank, Springfield, Illinois, First Mid Bank & Trust, Mattoon, IL, and Illinois Funds at US Bancorp, Milwaukee, Wisconsin.

Note 3 - **Capital Assets**

The Village's Fixed Assets, excluding land, are valued at historical cost or estimated historical cost, if actual cost is not known. A detailed listing is on file with the Village Clerk. Land was valued at estimated fair market value since no historical records were available.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 4 - **Restricted Fund Balances and Net Position**

Amounts in the Motor Fuel Tax Fund are classified as restricted in the fund financial statements and in the government-wide financial statements.

In the General Fund, special levies were made for road and bridge, police protection, audit, and liability insurance. All special levies in the General Fund were spent for the stated purposes. There were no restricted fund balance amounts in the General Fund as of April 30, 2025.

Note 5 - **Property Tax**

Property taxes attach as an enforceable lien on January 1 on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about June 1, and September 1. The County collects such taxes and remits them periodically. The 2023 Tax Levy Ordinance, adopted in December 2023, and collected in 2024, was used to finance the fiscal year ended April 30, 2025. The 2024 Tax Levy Ordinance, adopted in December 2024, is recorded as a receivable and unavailable revenue in the financial statements for the year ended April 30, 2025.

Note 6 - **Prepaid Expenses**

There are no prepaid expenses as of April 30, 2025.

Note 7 - **Interfund Payables/Receivables and Transfers**

Interfund Transfers of \$47,663 and \$22,905 were made from the Water Improvement Fund and the Sewer Improvement Fund, respectively, into the Water and Sewer Operating Fund during the year ended April 30, 2025. These transfers were made to close out these funds and bring the fund balance in each to \$0 at year-end.

At April 30, 2025, the Water & Sewer Fund owes the General Fund \$423,260 as an interfund payable, and the Motor Fuel Tax Fund owes the General Fund \$33,308 as an interfund payable. These interfund loans were made to help finance capital projects.

Note 8 - **Other Receivables and Payables**

At April 30, 2025, the following receivables are recorded:

- Accounts Receivable – Water and Sewer billings not yet collected at April 30 including the May 2025 billing. Other receivables identified by the Clerk, including motor fuel tax receivable and income tax receivable.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 8 - **Other Receivables and Payables (Continued)**

- Accrued Payroll Tax Liabilities – Unpaid wages and the related FICA and Medicare taxes for work performed in the current fiscal year.
- Accounts Payable – Unpaid bills for materials received or services provided at year-end.

Note 9 - **Insurance Risk Management**

The Village provides for risk management by securing comprehensive insurance through local insurance brokers. The Village reports no major changes in insurance coverage or risk during the current fiscal year. Insurance premiums are paid through the General Fund and the Water and Sewer Operating Fund.

Note 10 - **Leases**

The Village has no leases outstanding at April 30, 2025.

Note 11 - **Risk Management**

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Village's employees. These risks are provided for through a limited self-insurance program. The Village currently reports its risk management activities in the General Fund and the Water and Sewer Fund.

The Village participates in the Illinois Municipal League Risk Management Association (IMLRMA). IMLRMA is an organization of municipalities and special districts in Illinois which have formed an association under the Illinois Intergovernmental Cooperation Statute to pool its risk management needs. The association administers a mix of self-insurance and commercial insurance coverage; property/ casualty and workers' compensation claim administration and litigation management service; risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

IMLRMA is governed by a board of directors made up of Illinois mayors and village presidents of municipalities who participate in the program. The Village does not exercise any control over the activities of IMLRMA beyond its representation on the board of directors. Annual contributions are determined each year by underwriters based on the individual member's exposure to loss and experience modification factors based on past member loss experience. There have been no significant reductions in insurance coverage from the prior year. Settlements have not exceeded insurance coverage in each of the last three fiscal years.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 12 - Long-Term Debt

The following is a summary of changes in long-term debt of the Village for the year ended April 30, 2025.

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 13 - Legal Debt Margin

The Village is subject to a debt limitation of 8.625% of its assessed valuation of \$37,464,865. As of April 30, 2025, the Village had a debt limit of \$3,231,345 but no general obligation outstanding debt.

Note 14 - Accrued Compensated Absences

For the year-ended April 30, 2025, the Village adopted GASB 101 to account for the accrued compensated absences liability presented in Statements 1 and 5. The Village policy allows employees to carry over vacation across fiscal years. The Clerk maintains a detail of the amounts accumulated by each employee. The liability includes gross pay, the associated payroll taxes, and IMRF contributions for those employees enrolled in IMRF. The liability totaled \$5,007 for governmental activities and \$5,176 for the business-type activities. Due to the adoption of the new standard, a Change in Accounting Principal adjustment was necessary to properly adjust the beginning net position.

Note 15 - Retirement Benefits

All employees are covered by Social Security and Medicare. The Village also has a pension plan covering eligible employees. A summary of the plan follows:

Illinois Municipal Retirement Fund

Plan Description – The employer’s defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Employer’s plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF’s pension benefits is provided in the “Benefits Provided” section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan’s fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided – IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff’s Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS
April 30, 2025

Note 15 - Retirement Benefits (Continued)

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 year to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of: 3% of the original pension amount, or ½ of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms – As of December 31, 2024, the following employees were covered by the benefit terms:

<u>Membership</u>	
Number of	
- Retirees and Beneficiaries	7
- Inactive, Non-Retired Members	9
- Active Members	9
Total	<u>25</u>

Contributions – As set by statute, the Employer’s Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Employer’s annual contribution rate for calendar years 2024 and 2025 were 4.24% and 4.42%, respectively. For the fiscal year ended April 30, 2025, the Employer contributed \$24,644 to the plan. The Employer also contributes for disability benefits, death

VILLAGE OF KIRKLAND
NOTES TO FINANCIAL STATEMENTS

Note 15 - Retirement Benefits (Continued)

benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF’s Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability – The Employer’s net pension liability was measured as of December 31, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions - The following are the methods and assumptions used to determine total pension liability at December 31, 2024. The **actuarial cost method** used was Entry Age Normal. The **asset valuation method** used was Market Value of Assets. The **inflation rate** was assumed to be 2.25%. **Salary increases** were expected to be 2.75-13.75%, including inflation. The **investment rate of return** was assumed to be 7.25%. **Projected retirement age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated of the 2020 valuation according to an experience study from years 2017-2019. For **mortality**, for **non-disabled retirees**, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2000. For **disabled retirees**, the Pub-2010, Amount-Weighted, below-median income, General, and Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For **active members**, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Portfolio Target Allocation	Long-Term Expected Real Rate of Return
Equities	34.5%	5.00%
International Equities	18.0%	6.35%
Fixed Income	24.5%	4.75%
Real Estate	10.5%	6.30%
Alternatives	11.5%	8.65%
Cash Equivalents	1.0%	3.80%
Total	100.0%

Note 15 - Retirement Benefits (Continued)

Single Discount Rate – A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members’ contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects: 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 3.77%, and the resulting single discount rate is 7.25%.

Changes in the Net Pension Liability

2027	(12,935)
2028	(1,571)
Thereafter	-
Total	\$ 729,266

Note 16 - Post Employment Benefits

The Village has evaluated its potential other postemployment benefits liability. The Village provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with Illinois statutes, which creates an implicit subsidy of retiree health insurance. Former employees who choose to retain their rights to health insurance through the Village are required to pay 100% of the current premium. However, no former employees have chosen to stay in the Village’s health insurance plan. Therefore, there has been 0% utilization and, therefore, no implicit subsidy to calculate in accordance with GASB Statement No. 75, *Accounting and Financial Reporting By Employers for Postemployment Benefits Other Than Pensions*. Additionally, the Village has no former employees for which the Village was providing an explicit subsidy and no employees with agreements for future explicit subsidies upon retirement. Therefore, the Village has not recorded any postemployment benefit liability as of April 30, 2025.

Note 17 - Other Information

Tort Insurance Expenditures

The Village allocated the total amount of the tort insurance levy of \$21,247 received in the year ended April 30, 2025 towards tort insurance expenditures for the year, resulting in no restricted balances for tort as of April 30, 2025.

Contingent Liabilities

Litigation - The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the Village’s attorney that the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

2023	23,481	23,481	-	418,554	5.61%

*Estimated based on contribution rate of 5.61% and covered valuation payroll of \$418,554.

Notes to Schedule of Contributions: Actuarially determined contribution rates are calculated as of December 31 each year, which is a 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2020 - 2024 Contribution Rates: Actuarial Cost Method is Aggregate entry age normal. Amortization method is level percentage of payroll, closed. Remaining Amortization Period is 24 year closed period. Asset Valuation Method is 5-year smoothed market; 20% corridor. Wage growth is between 2.75% - 3.5%. Price Inflation is between 2.25% - 2.50% approximate; No explicit price inflation assumption is used in this valuation. Salary increases are 2.75% - 14.25%, including inflation. Investment Rate of Return is 7.25%. Retirement Age is Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2017 valuation pursuant to an experience study of the period 2014 to 2016. Mortality is based on specific mortality table was used with fully generational projection scale MP-2017 (base year 2015) with specific rates developed for non-disabled retirees, disabled retirees, and active members. The IMRF specific rates were developed from the RP-2014 Blue Collar Annuitant Mortality Table (non-disabled retirees), RP-2014 Disabled Retirees Mortality Table, and RP-2014 Employee Mortality Table (active members). Other Information: There were no benefit changes during the year.

Notes to Schedule: These schedules are presented to illustrate the requirements to show information for 10 years. However, until a full 10 year trend is compiled, information is presented for those years or which information is available.

VILLAGE OF KIRKLAND
REQUIRED SUPPLEMENTARY INFORMATION
NOTES TO BUDGETARY COMPARISON SCHEDULES
Year Ended April 30, 2025

Note A - **Budgets**

Budgets are adopted on a basis consistent with generally accepted accounting principles, except the proprietary funds which adopt a current financial resources measurement focus budget in that depreciation is not budgeted and capital outlay is budgeted. Annual appropriated budgets are adopted for the General, Special Revenue, and Enterprise Funds. All annual appropriations lapse at fiscal year end.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget.

The Treasurer is authorized to transfer amounts between departments within any fund; however, any revisions that alter total expenditures of any fund must be approved by the governing body. Expenditures may not legally exceed budgeted appropriations at the fund level. The budget was not amended during the fiscal year, so the original budget is also the final budget.
